Preferred Communication: Direct email.  
Email Policy: Response within 24 hours to emails received on weekdays (M-F) and 48 hours to emails received over the weekend. Outlook email is a safer means of communication than the email function within Canvas.

PURPOSE AND OUTCOME

Course Overview  
This course provides an overview of the evolving structure of the US health care delivery system. Since the US health care system has been periodically changed in diverse aspects over the decades, its dynamic mechanism should be understood. Particularly, the health care system encompasses organization, management, finance, policy and technology. Thus, comprehensive thinking is required.

Relation to Program Outcomes  
This is a core course in the Master of Public Health program and it covers several Foundational Competencies required for accreditation by CEPH (see below).

Course Objectives and/or Goals  
Upon completion of the course, students are expected to be able to:  
1. Describe the basic nature of the US health care system, such as structures and operations, from its historical origins and resources to its individual services, costs, and quality measures.  
2. Analyze the impact of political decisions and reforms on the health care system from a consumer and provider point of view.  
3. Identify challenges, features, and purposes associated with the 2010 Affordable Care Act.
4. Explain from a broad as well as a specific perspective how the U.S. health care system relates to different components of the system (public, private, consumers, providers) and the emerging health care trends (aging population, electronic health records, quality measurements, and technology).

5. Develop a proposal for change, which demonstrates sensitivity to cultural, ethnic, and social characteristics based on your current understanding of the U.S. health care system.

6. Identify the core functions of public health and the 10 essential services

**Competencies**

This course is designed to provide fundamental knowledge of US health care system.

ACADEMIC REQUIREMENTS AND GRADING

Exam
Exam: This course has two exams: mid-term and final. Exam dates are given on the course schedule. Exams cover the course materials, lectures, assigned readings, textbooks. The final exam is not cumulative.

Mid-term: Exam will open between June 17 (Mon) 12am to June 23 (Sun) 11:59pm
Final: Exam will open between Aug 3 (Sat) 12am to Aug 9 (Fri) 11:59pm

Assignments
1. Case Study: Emergency Department Issue Under the Emergency Medical Treatment and Labor Act (EMTALA)

The purpose of this case study is to have you think critically about a long-term problem facing the health care delivery system. The problem may not always be readily apparent based on an initial set of facts. As a healthcare consultant, you will propose a feasible solution to one of CEOs of CMH or City Hospital based on your research about patients' characteristics, population needs and current ED delivery system. To formulate a reasonable solution you need to generate some assumptions (a theory or premise).

Your proposal should be developed based on responses the following questions below.

a. Considerable questions to check the facts of the case
   ▪ As CEO of CMH what do you see as the key problem? What are the reasons for the key problem? You may wish to consider reasons that are not directly described in the case narrative.
   ▪ Shift your perspective. As CEO of City Hospital, what is the key problem? What are the reasons for the problem? How are the problems and the underlying reasons different once you change your vantage point?
   ▪ Finally, consider the role of the Mayor. Does the Mayor have a major problem on his hands? Why or why not? If you think the Mayor has a problem, what are the underlying reasons from his perspective?
   ▪ What are the characteristics of ED patients? Why do they visit to the ED rather than the other source of care?

b. Considerable questions to propose solutions
   ▪ If you were the CEO of CMH, what would you do? Hint: consider thinking about why people may go to the ED. Are there other sources of revenue that you could generate to help reduce the expected shortfall? What are these other potential sources?
   ▪ Now consider City Hospital. You have found a solution to your problem? Is there more you could do or should do?
   ▪ Are your solutions feasible? Are they effective and efficient to reduce ED congestion and save costs?

Format
   ▪ Should be a business memo format to one of the CEOs that your group chooses. The memo should consist of three sessions, 1) summary of the problem, 2) description of the population of the city, ED patient characteristics, and population needs and 3) solutions for ED congestion. It should be up to 4 pages in length (excluding reference/table/figure), double spaced, 1-inch margins and 12-point Arial font. (business memo format: https://owl.purdue.edu/owl/subject_specific_writing/professional_technical_writing/memos/sample_memo.html)
The memo should cite some scientific evidence about ED care and ED patients. The evidence should base peer-reviewed journal articles. In-text citations and references should be formatted using AMA style http://library.nymc.edu/informatics/amastyle.cfm

- Requires at least 3 references
- **Deadline: July 5 (Friday) 5pm submit via Canvas**

Rubric (15pts)

a. Summary/overview (7pts): Based on considerable questions above, summarize current issue with assumptions your group made. You should address why current ED policy is associated with this circumstance.

b. Solutions (8pts): Based on responses to considerable questions above, propose feasible and reasonable solutions to the CEO your group chooses. Should give data sources and illustrate what you assess with this data.

c. Extra pages and late submission are not allowed. (0.5 pts deduction)

2. **E-cigarette policy (Group Assignment)**

The purpose of the case study is to 1) have you consider diverse perspectives about the use of e-cigarettes and their impact on the healthcare delivery system, and 2) practice proposing a policy to the government. You will read the Harvard Business Review case study about E-Cigarettes. You will prepare the discussion on behalf of the assigned entity. More than five entities (example: health services managers, tobacco business, e-cigarette business, public health professionals, etc.) will discuss legislation of e-cigarettes use on the discussion board. The ultimate goal of this discussion activity is to understand how to propose and enact a health policy by compromising with different interest groups.

You will respond to the following questions in each policy cycle and address your points clearly with reasonable rationale on your presentation.

1. **Current Policy Evaluation**
   a. What kinds of current policies have been established with respect to e-cigarettes?
   b. What was the process of establishing those policies? (i.e., Who led to enact the policy, which agency is responsible for those policies, etc.)
   c. Assess the benefits or harms of current policies

2. **Issue raising**
   a. Describe current issues of e-cigarettes
   b. Assess the benefits or harms of e-cigarettes to consumers. (i.e., current cigarette smokers, never smokers, former smokers).
   c. Assess the public health benefits and risk of e-cigarettes.

3. **Policy design**
   a. How should e-cigarettes be regulated? Provide specific regulations with respect to your stakeholder’s perspective
   b. Do you think e-cigarettes can be considered as medicinal products?
   c. What are potential challenges of your perspective?
   d. What is your rationale of your opinion?

After your presentation, the next step of the policy making process is policy implementation and evaluation. Discuss the following questions with the other groups’ policies on the discussion board.

4. **Policy implementation and subsequent evaluation**
   a. Suppose that your proposed policy has been adopted. What are the potential challenges in implementing your policy? Do you think it is feasible to implement your policy?
   b. Evaluate your policy for its impact on public health and health equity.
c. What do you think about the policy proposed by the other stakeholders?

Format

a. This assignment is formatted in two ways: 1) present your viewpoints through the power point presentation, 2) Discuss with the other stakeholders.
b. You will create a voice over PowerPoint presentation (audio should be included) and submit it to the discussion board.
c. The presentation should be up to 3 minutes.
d. In-text citations and references should be formatted using AMA style (https://www.lib.jmu.edu/citation/amaquide.pdf)
e. After reviewing the other group’s proposal, discuss the feasibility of the policy with other groups on the discussion board.
f. Deadline: Slides should be submitted by July 26 (Friday) 5pm submit via Canvas

Rubric (10 pts)

a. Presentation (5 pts): Present key viewpoints on behalf of your entity clearly. Evaluate current e-cigarettes policy and discuss challenges your entity may face. A scientific and logical rationale should be provided.
b. Discussion (5 pts): Argue the opposing viewpoints. Respond to a question given by other groups. Your group should respond to all groups’ postings.

3. Comparative International Examples of Healthcare System (Group assignment)

Considering the current state of health care in the US, this project requires you to design an ideal US health care delivery system that would address key issues that will improve health outcomes in the US. This project is based on the knowledge gained throughout the semester on health care in the US such as system financing, service provision, equity, access, insurance type and management. Each country's healthcare system is unique and influenced by the local culture as well as per capita income and government spending for healthcare. Some elements in international healthcare can be a transportable solution for the healthcare system issues faced in the US.

You are asked to:

a. Introduce a health care delivery system from another country that your group selects and present the political, economic, social and cultural characteristics that help to understand that health care system (i.e., GDP, inequity, government structure, etc.).
b. Describe similarities and differences of health care delivery systems between the US and the selected country.
c. Identify at least 2 key problems in the US health care system based upon your comparisons.
d. Propose solutions or best approaches to improve US health care indicators from an international health care system using strategies from the selected country.
e. For each identified problem within the US health care system, explain why you think that is a problem and justify your proposed solution in the context of an international health care system. Take into account the political, social, economic and culture aspect and factors of the international health care system with respect to implementation of your proposed solution.

Format

- A presentation should be delivered via voice-over powerpoint slides. The presentation should be up to 15 minutes.
- Submit it to the discussion board—“International Comparison Project”
- Reference should follow the AMA style. (No Wikipedia or unreliable sources)
• **Deadline:** Submit the presentation slides by July 19 (Friday) 5pm via Canvas

Rubric (15 pts)

• Introduction (5 pts): Introduce a health care delivery system and the social and cultural characteristics of the country your group chose. Compare similarities and differences of the health care system between the US and the country your group selected.

• Identifying problems of the US health care system (5 pts): In-depth reflection on identifying key issues of US health care and justifications for your choices are well demonstrated and supported in the design of the ideal US health care system.

• Solutions (5 pts): Proposed feasible and applicable solutions for implementation of the design in considering all vital components. Very clear examples with well-organized analysis describing practical steps to improve the US health care with evidence-based approaches from the international health care and knowledge gained throughout the semester on health care.

• Extra page and late submission will reduce 0.5 pts of total grade.

4. **Article Critique (Group assignment)**

The purpose of this assignment is to have you think critically about the current US health care system according to scientific evidence. This exercise requires you to apply systems thinking tools when evaluating a topic and findings.

1. Each group will present **twice** throughout the semester.
2. Presentation dates will be on the announcement.

Your written article critique should include:

a. The name of the article, and cite the source (i.e. was it from JAMA, or other source, what was the date.)

b. Systems thinking- casual loop diagram (CLD)- Watch the video “Systems Thinking”
   a. Understanding patterns: define main problems of the topic and findings of the paper
   b. Understanding cause and effects: Present how the article is relevant to the previous lecture topic (i.e. implications for health policy, health care delivery, or health management) and discuss effects of the findings on the current healthcare system
   c. Looking for feedback: Present your thoughts about the findings (i.e., do you agree with the results, etc.) and discuss how you can improve or solve the problems.
   d. A video explaining this systems thinking tool will be posting on Canvas.

Format

• A presentation should be delivered via voiceover powerpoint slides of summary and critique slides.

• You should select an article from peer-reviewed journal. News article (i.e., the New York Times) or Wikipedia are not allowed.

• The presentation should be up to 5 minutes.

• **Due date:** the article and the presentation should be posted on discussion board, Canvas by Tuesday 5pm.

Rubric (5 pts*2=10 pts)

• Summary (3 pts): Summarize key points of a selected article and discuss the relevance and the significance of that topic in current US health care system

• Discussion (2 pts): Address implication clearly and logically

• Late submission will reduce 0.5 point

5. **Research Proposal (Individual assignment)**
The purpose of the proposal is to investigate a current phenomenon or issue in the health care delivery system. You will present the significance of your research question in the introduction/background and illustrate what to investigate. The topic should be relevant to current healthcare delivery system/health policy or public health programs. A suggested proposal outline corresponds to literature in peer-reviewed journals.

Format
- The template will be given on Canvas. Fill out each section.
- The paper should be up to 3 pages in length (excluding reference/tables/figures), double spaced, 1-inch margins and 12-point Arial font.
- In-text citations and references should be formatted using AMA style (https://www.lib.jmu.edu/citation/amaguide.pdf)
- Require at least 7 references from peer reviewed journals
- **Deadline: July 26 (Friday) 5pm submit via Canvas**

Rubric (15 pts)
- Title (1pt): Indicate the research question and study design
- Introduction/overview (10 pts): Explain the scientific background and logical rational for the investigation and state specific objectives. Review existing studies and critique those studies, what needs to be investigated. You can apply any theory if needed.
- Methods (1pt*3 parts=3pts)
  - Hypotheses: Provide a hypothesis you want to test.
  - Study population: Describe the eligibility criteria and the sources and methods of selection of study population
  - Outcome: Clearly define all outcomes and relevant variables
- Reference (1pts)
  - Should be formatted using AMA style
  - Extra page and late submission will reduce 0.5 point

Participation and Peer Evaluation
You are expected to be actively engaged in the course through the semester.

**Peer evaluation (5 pts):** You are going to assess your peers at the end of semester. Submit the peer evaluation to the peer evaluation assignment tab. If you don’t submit a peer evaluation, your peer evaluation will be zero. The evaluation template is posting on Canvas. **The due date is August 2nd (Friday) 5pm.**

Grading
Final grades will reflect your performance in these areas:

- There will be no rounding up for grade increments, for example a 92.99 is an A-. Please be aware that a C- is not an acceptable grade for graduate students. The GPA for graduate students must be 3.0. in all 5000 level courses and above to graduate. A grade of C counts toward a graduate degree only if a sufficient number of credits in courses numbered 5000 or higher have been earned with a B+ or higher.

More information on UF grading policy may be found at:
http://gradcatalog.ufl.edu/content.php?catoid=10&navoid=2020#grades

Exam Policy
Both exams will be given online. Multiple choices, True/False types of questions will be provided. All exams will be proctored by HonorLock program. The further explanation of HonorLock program is posting on Canvas.

Policy Related to Make up Exams or Other Work
Please note: Any requests for make-ups due to technical issues MUST be accompanied by the UF Computing help desk (http://helpdesk.ufl.edu/)correspondence. You MUST e-mail me within 24 hours of the technical difficulty if you wish to request a make-up.

Only in extreme circumstances will the instructor accept late assignments. If you anticipate turning an assignment in late, please discuss with the instructor or teaching assistant beforehand. It is your responsibility to check that the correct assignment has been submitted to Canvas on time. Always review your submission after turning it in. The penalty for late submission is a reduction by 0.5 point of the grade of each assignment.

Policy Related to Required Class Attendance
Excused absences must be consistent with university policies in the Graduate Catalog (http://gradcatalog.ufl.edu/content.php?catoid=10&navoid=2020#attendance) and require appropriate documentation. Additional information can be found here:
https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx
STUDENT EXPECTATIONS, ROLES, AND OPPORTUNITIES FOR INPUT

Expectations Regarding Course Behavior
You are expected to maintain a civil tone and respect the opinions of other persons. While commenting on others’ posts is encouraged, aggressive or patronizing tone and language are unacceptable and may result in the loss of your posting and discussion privileges.

Communication Guideline
Preferred communication is via direct email. Response within 24 hours to emails received on weekdays (M-F) and 48 hours to emails received over the weekend. Outlook email is a safer means of communication than the email function within Canvas.

Academic Integrity
Students are expected to act in accordance with the University of Florida policy on academic integrity. As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge:

“We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied:

“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For additional information regarding Academic Integrity, please see Student Conduct and Honor Code or the Graduate Student Website for additional details:

https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/
http://gradschool.ufl.edu/students/introduction.html

Please remember cheating, lying, misrepresentation, or plagiarism in any form is unacceptable and inexcusable behavior.

Online Faculty Course Evaluation Process
Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results/.

SUPPORT SERVICES
Accommodations for Students with Disabilities
If you require classroom accommodation because of a disability, it is strongly recommended you register with the Dean of Students Office http://www.dso.ufl.edu within the first week of class or as soon as you believe you might be eligible for accommodations. The Dean of Students Office will provide documentation of accommodations to you, which you must then give to me as the instructor of the course to receive accommodations. Please do this as soon as possible after you receive the letter. Students with disabilities
should follow this procedure as early as possible in the semester. The College is committed to providing reasonable accommodations to assist students in their coursework.

**Counseling and Student Health**

Students sometimes experience stress from academic expectations and/or personal and interpersonal issues that may interfere with their academic performance. If you find yourself facing issues that have the potential to or are already negatively affecting your coursework, you are encouraged to talk with an instructor and/or seek help through University resources available to you.

- The Counseling and Wellness Center 352-392-1575 offers a variety of support services such as psychological assessment and intervention and assistance for math and test anxiety. Visit their website for more information: [http://www.counseling.ufl.edu](http://www.counseling.ufl.edu). On line and in person assistance is available.

- You Matter We Care website: [http://www.umatter.ufl.edu/](http://www.umatter.ufl.edu/). If you are feeling overwhelmed or stressed, you can reach out for help through the You Matter We Care website, which is staffed by Dean of Students and Counseling Center personnel.

- The Student Health Care Center at Shands is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at Shands offers a variety of clinical services. The clinic is located on the second floor of the Dental Tower in the Health Science Center. For more information, contact the clinic at 392-0627 or check out the website at: [https://shcc.ufl.edu/](https://shcc.ufl.edu/)

- Crisis intervention is always available 24/7 from: Alachua County Crisis Center: (352) 264-6789 [http://www.alachuacounty.us/DEPTS/CSS/CRISISCENTER/Pages/CrisisCenter.aspx](http://www.alachuacounty.us/DEPTS/CSS/CRISISCENTER/Pages/CrisisCenter.aspx)

Do not wait until you reach a crisis to come in and talk with us. We have helped many students through stressful situations impacting their academic performance. You are not alone so do not be afraid to ask for assistance.

**Inclusive Learning Environment**

Public health and health professions are based on the belief in human dignity and on respect for the individual. As we share our personal beliefs inside or outside of the classroom, it is always with the understanding that we value and respect diversity of background, experience, and opinion, where every individual feels valued. We believe in, and promote, openness and tolerance of differences in ethnicity and culture, and we respect differing personal, spiritual, religious and political values. We further believe that celebrating such diversity enriches the quality of the educational experiences we provide our students and enhances our own personal and professional relationships. We embrace The University of Florida’s Non-Discrimination Policy, which reads, “The University shall actively promote equal opportunity policies and practices conforming to laws against discrimination. The University is committed to non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinions or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans’ Readjustment Assistance Act.” If you have questions or concerns about your rights and responsibilities for inclusive learning environment, please see your instructor or refer to the Office of Multicultural & Diversity Affairs website: [www.multicultural.ufl.edu](http://www.multicultural.ufl.edu)
