Inclusive Learning Environment

Public health and health professions are based on the belief in human dignity and on respect for the individual. As we share our personal beliefs inside or outside of the classroom, it is always with the understanding that we value and respect diversity of background, experience, and opinion, where every individual feels valued. We believe in, and promote, openness and tolerance of differences in ethnicity and culture, and we respect differing personal, spiritual, religious and political values. We further believe that celebrating such diversity enriches the quality of the educational experiences we provide our students and enhances our own personal and professional relationships. We embrace The University of Florida's Non-Discrimination Policy, which reads, "The University shall actively promote equal opportunity policies and practices conforming to laws against discrimination. The University is committed to non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinions or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans' Readjustment Assistance Act." CLASS ATTENDANCE

POLICY RELATED TO MAKE UP EXAMS OR OTHER WORK

Consistent with University policy, students are allowed to make up work with either instructor permission, or if the missed/late work is the result of illness, or serious family emergencies. Students requesting make-ups or extensions for reaction papers, quizzes/exams, or discussion posts must contact the instructor through the “Request” feature on the Canvas homepage and provide the necessary documentation (e.g., verifiable documentation from a health care provider) to support/justify the make-up/extension.

Because this course is offered online asynchronously, it is assumed that students should be able to complete course requirements around anticipated obligations such as professional conferences, religious holidays, and participation in official university activities. However, students may contact the instructor through the “Request” feature in the event of a conflict. Under these circumstances, students are expected to include documentation that supports their request.

ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

If you require classroom accommodation because of a disability, you must first register with the Dean of Students Office (<http://www.dso.ufl.edu>).
