University of Florida  
College of Public Health & Health Professions  

Syllabus

PHC 6313: Environmental Health Concepts in Public Health  
Fall 2022 - 3 Credit hours

Delivery Format: Module content delivery via e-Learning in Canvas; Presentations and discussions in-person

In-person class time/location: Tuesdays 1:55 – 3:50PM/ CGRC Auditorium (Rm G-101)

| Instructor: Tara Sabo-Attwood                     |
| Phone number: 352-294-5293                        |
| Email address: sabo@phhp.ufl.edu                 |
| Office location & hours: CGRC classroom; 30 min immediately after class or by appointment |

| Teaching assistant: Mackenzie Connell            |
| Prerequisites: None                               |
| Preferred course communications: The “Inbox” in Canvas will be used for all email correspondence. Instructors and TAs will not be responsible for emails sent their “UFL” email addresses. |

PURPOSE AND OUTCOME

Course Overview
This course is a survey of major topic areas in Environmental Health. It will examine sources, routes, media, and health outcomes associated with biological, chemical and physical agents in the environment. It will cover how these agents affect disease, water and air quality, food safety, and land resources in community and occupational settings. The course will introduce an economic context to the topical areas, and touch on legal frameworks associated with environmental and public health issues.

Course Objectives
Upon completion of this course, students will be able to:

1. Define the major sources of biological, chemical and physical agents found in water, air, soil, and food
2. Understand chemical and pathogen routes of exposure, toxic mechanisms of action, and health impacts
3. Describe tools used to analyze health impacts of environmental exposures within such fields as toxicology, exposure assessment, and epidemiology
4. Describe the role of risk assessment paradigms in creating safe environments, including target populations exposed to hazardous agents
5. Describe methods used to detect, manage, control, or remove health hazards
6. Understand existing regulatory framework and policy for controlling environmental and occupational agents/exposures

Relation to Program and Learning Outcomes
Competencies primarily gained in this course

1. Monitor health status to identify and solve community health problems
2. Diagnose and investigate health problems and health hazards in the community using an ecological framework
3. Inform, educate, and empower people about health issues
4. Use laws and regulations that protect health and ensure safety
5. Communicate effectively with constituencies in oral and written forms
Competencies reinforced in this course

1. Mobilize community partnerships and actions to identify and solve health problems
2. Develop policies and plans that support individual and community health efforts
3. Evaluate effectiveness, accessibility and quality of personal and population-based health services
4. Conduct research for new insights and innovative solutions to health problems

Instructional Methods

1. Lectures: are for general orientation. Students are responsible for all the material presented in the course and assigned readings. This will be the main source of content in this course.
2. Readings and Resources. In addition to the required text, supplementary readings and resources will be posted in the course. The reading list may be supplemented during the course.
3. Assessments: A variety of assessments will be used in this course, including but not limited to debates, discussions, In the News projects and exams.

DESCRIPTION OF COURSE CONTENT

This course is taught as a series of modules, each covering one specific aspect of environmental health. Each module may contain lectures, external links, videos, discussions and required readings as well as assignments. You are responsible for all course content regardless of the format. The Topical Outline/Course Schedule below details the dates of content modules and assignments. Debates and Exams are also listed.

Getting Started

1. Visit http://lss.at.ufl.edu and login to e-Learning in Canvas using your Gatorlink ID and password.
2. Find our course website. It will be listed as PHC6313: Environmental Health Concepts in Public Health, Fall 2022.
3. Complete the “Getting Started” Module under the Modules Tool (left menu). This will prompt you to download and review the syllabus, review the materials on plagiarism, and complete the syllabus quiz.

The remainder of the course materials will be locked and unavailable to you until you have completed the “Getting Started” module. You MUST earn a 100% score on this quiz in order for the course materials to open in the course site. If you do not receive a 100% score, please review the feedback on your quiz attempt and retake as soon as possible. This is an important element to ensure that all students are aware of the curriculum requirements for this course. If you have ANY difficulty with this quiz, please send an email in the course to using the Canvas “Inbox” as soon as possible.

Required Course Materials and Technology

Textbook:
The suggested textbook is optional and you can choose to purchase it if you would like this as an extra resource. No exam questions will be taken directly from the book; it is meant to be a supplemental resource. Environmental Health, 4th edition

Required Hardware (in preparation for moving to on-line synchronous meetings based on COVID if course delivery changes):
The synchronous classes may meet by Zoom, depending on the COVID-19 pandemic. Webcam and microphone are required. You may use laptop built-in webcams, but you must be able to move the camera during use for exams. A headset microphone is required for any live sessions/debates. Additional technical requirements are outlined at http://publichealth.phhp.ufl.edu/tech/.

e-Learning in Canvas site:
There will be an online site for this course in Canvas, the learning management system supported by the University. Log in at https://lss.at.ufl.edu/ and go to course site for PHC6313: Environmental Health Concepts in Public Health, Fall 2021. Here, we will post the syllabus, lecture presentations, assignments and allow for discussions/chats among the students and course leaders. You will also turn in assignments through Canvas. Once the course begins, all communication will take place through the e-Learning in Canvas site. This includes all emails. This will eliminate any issues with students not getting emails due to connection problems. It will be your responsibility to check the site on a routine basis to keep up with announcements, emails, and course modifications.
For technical support related to course materials and links, please contact me or the UF Help Desk.

For technical support for this e-Learning in Canvas, please contact the UF Help Desk at:

- Available 24 hours a day, 7 days a week
- (352) 392-HELP - select option 2
- helpdesk@ufl.edu (email)
- helpdesk.ufl.edu (website)

Additional Academic Resources

- [Career Connections Center](#): Reitz Union Suite 1300, 352-392-1601. Career assistance and counseling services.
- [Library Support](#): Various ways to receive assistance with respect to using the libraries or finding resources.
- [Teaching Center](#): Broward Hall, 352-392-2010 or to make an appointment 352-392-6420. General study skills and tutoring.
- [Writing Studio](#): 2215 Turlington Hall, 352-846-1138. Help brainstorming, formatting, and writing papers.
- Student Complaints On-Campus: [Visit the Student Honor Code and Student Conduct Code webpage for more information.](#)
- On-Line Students Complaints: [View the Distance Learning Student Complaint Process.](#)

### Instructional Methods

1. **Lectures** are for general orientation. Students are responsible for all the material presented in the course and assigned readings or videos. This will be the main source of content in this course.

2. **Readings and Resources.** In addition to the text, supplementary readings and resources will be posted in the course. The reading list may be supplemented during the course.

3. **Assessments:** A variety of assessments will be used in this course, including but not limited to presentations, discussions, written assignments and exams.

### Blended Learning

**What is blended learning and why is it important?**

A Blended Learning class uses a mixture of technology and face-to-face instruction to help you maximize your learning. Knowledge content that, as the instructor, I would have traditionally presented during a live class lecture is instead provided online before the live class takes place. This lets me focus my face-to-face teaching on course activities designed to help you strengthen higher order thinking skills such as critical thinking, problem solving, and collaboration. Competency in these skills is critical for today’s health professional.

**What is expected of you?**

You are expected to view the online lectures and attend the weekly in-person session, whether it occurs in person or on Zoom, depending on the COVID-19 pandemic and campus conditions. You are also expected to complete all readings, assignments, and exams. Additionally, you are expected to actively engage in the course throughout the semester. Your participation fosters a rich course experience for you and your peers that facilitate overall mastery of the course objectives.

You must come to class prepared by completing all out-of-class assignments. This preparation gives you the knowledge or practice needed to engage in higher levels of learning during the live class sessions. If you are not prepared for the face-to-face sessions, you may struggle to keep pace with the activities occurring in the live sessions, and it is unlikely that you will reach the higher learning goals of the course. Similarly, you are expected to actively participate in the live class. Your participation fosters a rich course experience for you and your peers that facilitates overall mastery of the course objectives.
ACADEMIC REQUIREMENTS AND GRADING

General Information
Assignments are to be turned in as a Word document, text entry, video upload, or PowerPoint file as directed, unless otherwise indicated. They may be returned to you with comments, as applicable. If you have unexpected issues with Canvas, you may email the assignment to the course TA and professor directly and submit on Canvas once the issues are resolved. Assignments are normally intended as individual projects unless otherwise directed. Shared work may be treated as a form of plagiarism.

Assignments may be required to be submitted via Turnitin in this course (this will be done automatically in the Canvas Assignment upload, as appropriate). This tool will pick up any passages in students’ work that come from another source (e.g., websites or other students). Be sure to adequately cite your sources/references for these assignments to avoid plagiarism (see format below). Do your best to write content from outside sources into your own words and cite the source using an in-text citation.

The Canvas assignment tool may notify you confirming the submission of your assignment. PLEASE check your UFL email at http://webmail.ufl.edu on a regular basis for these and other email notices from the course site. If you do not receive an email confirmation within 2 hours of submission, please return to the site and resubmit your assignment. It is a student’s responsibility to verify that they turn in assignments on time and that they turn in the CORRECT assignment attachment. Please take a few moments to open your submitted attachment and verify that you have submitted to correct file.

You will be graded in the course through the use of different learning assessments which are as follows:

1. Written Assignments (5 @ 50 points each; Total 250 points)
   Purpose and relationship to course goals: The written assignments are an opportunity for students to apply their knowledge gained in the readings and lectures. Each assignment takes a different approach to a selection of the modules with engaging activities, ranging from analyzing and interpreting data to drafting a grant proposal idea.

   There will be five (5) graded written assignments. Typically, these will be one to two single-spaced pages long. Detailed instructions will be provided with each assignment. Page limits and content limits do not include reference lists unless otherwise noted.

   Assignments 1 - 5 are to be turned in as a text entry or Word document in the Canvas Assignment tool on Tuesday by 9AM unless otherwise indicated. They will be returned back to you with comments after grading, as applicable. If you have unexpected issues with Canvas, you may email the assignment to the course TA and professor directly, and submit on Canvas once the issues are resolved. All written assignments are individual work, unless otherwise directed. Shared work (other than shared efforts on team projects) may be treated as a form of plagiarism. Assignments may be required to be submitted via Turnitin in this course (this will be done automatically in the Canvas Assignment). This tool will pick up any passages in students’ work that come from another source. Be sure to adequately cite your sources/references for these assignments to avoid plagiarism (see format below). Please check your Turnitin report by going back to the assignment and clicking on the colored box icon in the assignment (you want to achieve a blue or green indication) – anything yellow, orange or red should be adjusted and resubmitted BEFORE the assignment deadline. So, it is recommended that you submit EARLY to enable you to utilize this option of resubmission. Resubmissions after the due date are subject to a late submission penalty.

2. Group Debate Assignment (200 points total)
   Purpose and relationship to course goals: The group debate serves several main purposes: (1) apply course content and knowledge to specific situations by taking a stance on an issue, researching it, and backing up the position with evidence; (2) working collaboratively as a group to develop professional skills and interactions; (3) practicing oral and written communication skills in a professional setting.

   Each student will complete one debate assignment during the semester. You will be assigned to one debate. There will be approximately 8 students per topic with 4 students per team. For this exercise, two teams for each topic will research and defend a ‘pro’ or ‘con’ stance for a pre-assigned topic. Each team will upload one PowerPoint presentation of no more than 10 slides that highlight their ‘pro’ or ‘con’ stance on the topic. Each group will be required to follow the specific format described in the debate instructions (provided as a separate document).
Debates will occur during the in-class meetings following the schedule at the end of the syllabus. You are also expected to participate in the follow-up discussion. There is much to learn from each other in this kind of course. This will be an opportunity to share your experiences and expertise. Everyone’s experience will be better if you choose to participate when you have something meaningful to contribute.

There will be 2 components towards your grade when you directly participate in your debate:

(a) Group presentation (100 points): For this part of the assignment, you and your team will be graded on your knowledge and presentation. The structure and points to cover will be explained in more detail for each panel. The presentation occur live in class. Each group will upload one joint PowerPoint presentation file into the Canvas assignment submission page for grading.

(b) Group written assignment (100 Points): For this part of the assignment, you and your group will prepare and submit approximately a 5-6 page, 11-point font, double-spaced word essay describing support for their assigned stance ‘pro’ or ‘con’ with at least 5 reputable sources (see format below), such as data gathered from PubMed, Web of Science, or governmental agencies. Your group cannot support your claim with public discussion sources or material that is opinion-based. Your group can present situations regarding public opinion with reliable sources or describe events (protesting, etc.), but these examples will not count as your 5 major sources. This written assignment will be due on the day of your presentation. All group members are expected to participate and contribute substantially to the development of the group written assignment. If not, all group members are participating in the work to prepare for the debates, please let the instructors know.

The following reference list format is to be used:

In-text reference format: (Sabo-Attwood et al., 2011)

You will only be required to participate in ONE team debate in this course. But, you will be required to respond to other student debates (see details below) and participate actively in class. All debate materials are to be submitted prior to the presentation in class.

3. Debate Reflection (50 points total; two @25 points each)

Purpose and relationship to course goals: The debate reflections facilitate critical thinking and self-reflection about the challenges related to current environmental topics. Furthermore, it will allow students to continue their application of course content and research of topics while supporting their reflections with evidence. The reflection must be submitted 1 week following the debate by Tuesday at 9AM (or as otherwise stated on the syllabus/canvas).

All students are expected to participate in debate discussions during our in-class meetings. Following these discussions, for 2 of the debates (not including your assigned debate) each student will write a short summary (2-3 paragraphs) describing their perspective on this topic. Each student will be assigned to 2 debates that they will provide a reflection for. The debate reflections are due 1 week after the debate was performed. This summary should address the following:

- Highlight the greatest strength and weakness of each team
- Do you believe the references for material presented were credible? Why or why not.
- What did you learn that was new or surprising and did this information alter your personal stance on the topic.

4. In the News Assignment (75 points total)

Purpose and relationship to course goals: The ‘In the News’ presentations allows students to connect course material with current events and conversations happening in the media. Students apply critical thinking skills and practice oral and written communication skills.

Each student will be required to submit one ‘In the News’ assignment during the semester on Canvas. For this assignment, each student will be assigned to a topic area at the beginning of the semester, such as ‘toxicology’ or ‘infectious disease.’ You will perform a search to identify a current news story that relates to this topic. The ‘news’ can be positive, negative, changes in policy, public concerns, etc. You may use general public news forums (TV, web, newspaper); however, please make sure that the sources are credible. If you need help determining whether a source is credible or suitable for use in this assignment, please reach out to your course instructor or teaching assistant, as applicable.
This assignment will consist of two components:

(1) You are to prepare 1 Powerpoint slide and present the slide (2-3 minutes plus questions) in our synchronous (in-class) meeting (50 points). The slide can be visual – with pictures, embedded video links, etc. Please include a link to the article using appropriate citation format (see “In the news” assignment description on Canvas) on the slide.
   a. Describe the ‘news’ item in brief and how it relates to the assigned category (i.e. toxicology).
   b. Is the news projecting or emphasizing a positive influence on public health or a concern? What evidence do they have?
   c. What do the experts say should be done about it? Is there any controversy?

(2) You are to prepare a 1-2 page, double-spaced, written assignment on your article topic (25 points).

Strengths and Weaknesses: Complete parts a and b below:

a. Using bullet points, outline the strengths and weaknesses of the article you selected (example topics to consider include descriptions of: scientific evidence, justifications, coverage of the topic, audience expectations/knowledge, and similar).

b. Building on the bullet point list of strengths and weaknesses, create a portion of a new article on your topic for the venue of the article on which you reported. Write a new title for the article and two paragraphs of the article. These can be the first two paragraphs or from another location in the article. This is an opportunity to improve the weaknesses and continue to showcase the strengths you outlined. Consider the audience for this venue and the style of writing, including your word choices and sentence length. Be sure to cite all sources.

An example ‘In the News’ presentation slide will be posted on Canvas. Make sure to cite your references using the citation style of the venue for which you are “re-writing.” If you cannot determine that citation style, please use the class style or APA. The due date for this assignment will be based on the topic you are assigned as due dates are associated with the specific topic.

After each presentation students are expected to participate in the In the News discussions during our in-class meetings. All ITN PowerPoint and word documents are to be submitted prior to class when the presentation will take place.

5. Participation (25 points)

It is expected that students engage in in-class activities and discussions on a regular basis. Examples include asking meaningful questions and commenting on In the News and Debate discussions. The instructor will monitor how often and how many contributions are shared.

6. Exams (one midterm and one final @ 200 points each; Total 400 points)

Purpose and relationship to course goals: The exams are an opportunity for students to demonstrate course content and knowledge, apply their knowledge to new situations, show their understanding of the connections among course themes through a variety of question styles and types, and apply and reinforce course materials.

There will be two in-class exams: a midterm and a final. The format for both exams will be CLOSED BOOK. The midterm exam will test your knowledge of the first series of modules, including material covered in lectures, in the news slides, and assigned readings. The final exam will focus on material covered in modules from the midterm onward; however, as this material builds on concepts presented during the first half of the course, it will be imperative to have a good comprehension of material covered during the first part of the course. Both exams will be comprised of multiple choice, matching, and true/false questions, where you will be expected to interpret the material that is presented in the course and apply it to the scenarios or situations that the exam questions present.

Students will take the exam using an online proctoring service like HonorLock. Platforms like HonorLock will verify your identity and monitor your exam process via webcam. You typically provide 2 forms of picture ID to the proctor and move your webcam around to show your environment. You need a working webcam and microphone to take exams in this course if the exam will occur online. More information will be provided as needed.
Grading
A key course requirement of this course is alignment with professional standards of the discipline, including behavioral conduct in alignment with public health and UF Health Science Center practices, requirements and expectations. This may include wearing masks, maintaining physical distancing, or other similar requirements set in relation to the COVID-19 pandemic. Not following these professional standards may impact the ability to participate in the course or course activities, as well your grade in the course.

The course assignments/activities are broken down into the following points:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Due Date</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Written Assignments = 5 @ 50 points each</td>
<td>See Course Schedule</td>
<td>250</td>
</tr>
<tr>
<td>Debate Presentation = 1 @ 100 points each</td>
<td>See Course Schedule and team assignment</td>
<td>100</td>
</tr>

For greater detail on the meaning of letter grades and university policies related to them, see the Registrar’s Grade Policy regulations at:
http://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

Late Assignments and Make Up Work
Assignments turned in up to 24 hours late will be discounted 10% of the grade that they would otherwise receive. Assignments turned in more than 24 hours late will not be graded and will contribute zero points toward your final grade, unless arrangements have been made in advance with the instructor or in the case of extenuating circumstances. Extenuating circumstances will be addressed on a case-by-case basis. Missed assignments will contribute zero points toward your final grade.

Special Circumstances. In the event of exceptional situations that may interfere with your ability to perform an assignment or meet a deadline, contact the instructor as soon in advance of the deadline as possible. Such special cases will be dealt on an individual basis, provided that you have sufficient documentation. The COVID-19 pandemic is a rapidly changing situation. We will be responsive to needs in this area.
Please note: Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from LSS when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail me within 24 hours of the technical difficulty if you wish to request a make-up.

**Policy Related to Required Class Attendance**

All faculty are bound by the UF policy for excused absences. For information regarding the UF Attendance Policy see the Registrar website for additional details: [https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx)

IMPORTANT: Please follow campus policies related to COVID-19 and please do not attend class if you are experiencing symptoms. We will make other arrangements for activities and assignments. **Your health and the health of everyone in the classroom is more important than a class assignment or activity.**

**STUDENT EXPECTATIONS, ROLES, AND OPPORTUNITIES FOR INPUT**

**Expectations Regarding Course Behavior**

You are expected to maintain a civil tone and respect the opinions of others. While commenting on others’ statements and ideas is encouraged, aggressive or patronizing tone and language are unacceptable and may result in the loss of your posting and discussion privileges. This type of unacceptable behavior and penalty may impact course and assignment grades, as applicable.

**Privacy**

If we move to online synchronous meetings (or hyflex), our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the “chat” feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

**Communication Guidelines**

You are encouraged to contact the instructor and the TA by email using the “Inbox” in Canvas for clarification and assistance with the course material and the assignments, and for special issues that may arise. Weekday daytime (US Eastern Time) emails have the best chances of being answered quickly. Please only use the Canvas “Inbox” to communicate with the course instructor and/or TA. While the instructors and TAs will check their UFL email regularly, they will not be held responsible for email sent directly to their UFL addresses. The goal is to receive a reply within 48 hours during the work week (Monday through Friday) or a reply to a weekend email after the next week begins. Please do not anticipate replies to email during the weekend.
**Academic Integrity**
Students are expected to act in accordance with the University of Florida policy on academic integrity. As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge:

“We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied:

“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For additional information regarding Academic Integrity, please see Student Conduct and Honor Code or the Graduate Student Website for additional details:
https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/
http://gradschool.ufl.edu/students/introduction.html

Please remember cheating, lying, misrepresentation, or plagiarism in any form is unacceptable and inexcusable behavior. Plagiarism is especially damaging in an online learning environment and will be dealt with in an official way, according to University of Florida regulations. Incidents will be reported directly to the Office of Student Judicial Affairs and a formal procedure will be started in each and every case. There will be no informal incident resolution between student and instructor. Should you have any doubts on whether something constitutes plagiarism, please consult the many available resources on the topic, e.g. starting with http://web.uflib.ufl.edu/msl/subjects/Physics/StudentPlagiarism.html, or contact the instructor in advance. There is also a reference posted in the course site, in the Course Help link. As you submit assignments, you will have the opportunity to check it for unintentional plagiarism using Turnitin®, the same software that instructors will use to check your work. You are encouraged to take advantage of this option. If you turn in assignments that are plagiarized, you will receive zero points for that assignment.

You are expected to turn in original work in this course. This means that when answering assignment questions, writing papers, posting discussions, etc., you will be expected to write your responses in your own words. You MAY NOT copy answers word for word from any course materials or outside sources. On occasion it may be useful to provide a quote from course materials or outside sources in which case you must properly cite the source and place the quote in quotation marks. That being said we urge you to avoid excessive quotation as it does little to demonstrate you understanding of course material.

**Online Faculty Course Evaluation Process**
Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results/.
SUPPORT SERVICES

Accommodations for Students with Disabilities
If you require classroom accommodation because of a disability, you must register with the Dean of Students Office http://www.dso.ufl.edu within the first week of class. The Dean of Students Office will provide documentation of accommodations to you, which you then give to me as the instructor of the course to receive accommodations. Please make sure you provide this letter to me by the end of the second week of the course. The College is committed to providing reasonable accommodations to assist students in their coursework.

Counseling and Student Health
Students sometimes experience stress from academic expectations and/or personal and interpersonal issues that may interfere with their academic performance. If you find yourself facing issues that have the potential to or are already negatively affecting your coursework, you are encouraged to talk with an instructor and/or seek help through University resources available to you.

- The Counseling and Wellness Center 352-392-1575 offers a variety of support services such as psychological assessment and intervention and assistance for math and test anxiety. Visit their web site for more information: http://www.counseling.ufl.edu. On line and in person assistance is available.
- You Matter We Care website: http://www.umatter.ufl.edu/. If you are feeling overwhelmed or stressed, you can reach out for help through the You Matter We Care website, which is staffed by Dean of Students and Counseling Center personnel.
- The Student Health Care Center at Shands is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at Shands offers a variety of clinical services. The clinic is located on the second floor of the Dental Tower in the Health Science Center. For more information, contact the clinic at 392-0627 or check out the web site at: https://shcc.ufl.edu/
- Crisis intervention is always available 24/7 from: Alachua County Crisis Center (352) 264-6789 http://www.alachuacounty.us/DEPTS/CSS/CRISISCENTER/Pages/CrisisCenter.aspx

Do not wait until you reach a crisis to come in and talk with us. We have helped many students through stressful situations impacting their academic performance. You are not alone so do not be afraid to ask for assistance.

Inclusive Learning Environment
Public health and health professions are based on the belief in human dignity and on respect for the individual. As we share our personal beliefs inside or outside of the classroom, it is always with the understanding that we value and respect diversity of background, experience, and opinion, where every individual feels valued. We believe in, and promote, openness and tolerance of differences in ethnicity and culture, and we respect differing personal, spiritual, religious and political values. We further believe that celebrating such diversity enriches the quality of the educational experiences we provide our students and enhances our own personal and professional relationships. We embrace The University of Florida’s Non-Discrimination Policy, which reads, “The University shall actively promote equal opportunity policies and practices conforming to laws against discrimination. The University is committed to non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinions or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans’ Readjustment Assistance Act.” If you have questions or concerns about your rights and responsibilities for inclusive learning environment, please see your instructor or refer to the Office of Multicultural & Diversity Affairs website: www.multicultural.ufl.edu
